**VISION CONSULTING ANNOUNCES NEW EXECUTIVE HIRE**

*Ron McClure joins as Vice President of Delivery*

NASHVILLE, TENN. – Nov 30. – [Vision Consulting](#), a Nashville based Healthcare Information Technology Consulting Company adds a new member to its executive team in December – Vice President of Delivery, Ron McClure. Vision Consulting is proud to welcome McClure, an experienced professional who will help guide the Company's continued growth.

"Ron McClure adds tremendous value to the [Vision Consulting](#) team," said founder and President, Tim Unger. "His extensive project management, solution development and healthcare leadership experience is energizing our management team, and his passion for excellence and superior customer service are elevating our offerings to the next level. We are very excited to have him with us, and are continually impressed by his contributions."

As Vice President of Delivery at Vision Consulting, McClure is charged with all facets of Service Delivery, including Consulting, Implementations, and Staffing Services for the existing client base. McClure will also play a pivotal role with developing the overall strategy for Vision Consulting and our clients. McClure brings over 20 years of experience in the healthcare information technology arena. Most recently, he was the Chief Information Officer at PSI-Psychiatric Solutions Inc.

Prior to PSI-Psychiatric Solutions, McClure was the Assistant Vice President of Business Solutions at Hospital Corporations of America (HCA), where he managed all aspects of the strategic client IT solutions delivery for the Financial Services Group.

**About Vision Consulting**

[Vision Consulting, LLC](#) is a Nashville-based professional services organization that provides advanced Healthcare Information Technology (HIT) services. Our clients range from Integrated Delivery Networks to small rural hospitals. Vision's founders and consultants have broad technical and clinical HIT experience. We believe that in an increasingly clinically focused HIT environment, our client's future success requires technical support combined with clinical insight and focus.
