FOR IMMEDIATE RELEASE

2010 EDITION OF CATALYST MAGAZINE PROFILES TECH LEADERS

Features include Tech Top 100 and Electronic Medical Records

Nashville, TN – December 7, 2010-- The Nashville Technology Council officially released its annual technology business magazine *Catalyst*. *Catalyst* is a self published technology publication featuring a cross section of articles concerning the variety of technology verticals in Middle Tennessee and around the State. Members of the Technology Council received an advance copy of the 2011 addition prior to its release to the public.

“We are very excited to highlight the tech companies that make Middle Tennessee home,” said J. Tod Fetherling, President/CEO Nashville Technology Council. “This year’s edition covers education, robotics, electronic medical records, and music. Our technology industry is as diverse as any in the country and powers today’s industries in America who are transforming the global markets in health, music, and transactions.”

Featured articles include:

The Top 100 Technology Leaders in Tennessee
Nashville’s Next Big Hit - Electronic Medical Records
Venture Capital in Tennessee
New Tunes – Music Startups
BioTech – Strengthening Bones and the Community
Social Media
iRobot – Robots that Learn

“*Catalyst* will be used in economic development, recruiting, and in our T3 Initiative to educate future students about the benefits of pursuing technology careers,” said Andy Flatt, Chair of the Nashville Technology Council Board of Directors. “This vehicle will be used extensively over the next 12 months to promote our city, our businesses and our future.”

To order a copy of *Catalyst* or to find out more information, email catalyst@technologycouncil.com.

About Nashville Technology Council

The Nashville Technology Council is an exclusive, 501 (c)(6) professional membership based nonprofit organization dedicated to helping the Middle Tennessee technology

community succeed. Created in 1999 as an affiliate of the Nashville Area Chamber of Commerce, the Technology Council represents, promotes and supports over 400 organizations through events and conferences, professional and student education initiatives, specialized economic development projects, technology job resources and growth projects and other community resources. Membership is open to technology companies, technology employers, service providers, educational institutions, and non-profit companies interested in supporting the growth of technology businesses in Middle Tennessee.
